

Olga Aspro

UX/UI Designer

Able to take ideas from a concept through wireframes to prototypes and a final product. Believe that with design thinking and empathy we can create a great user experience: intuitive, valuable, simple, and clear.

EXPERIENCE

UI/UX Designer / Association CCB Mieux Etre (volunteer)

July 2021 - Present

Design and build a website presenting all the necessary information for cancer patients of the clinic and donors about the different types of recovery therapy for body and mind (art therapy, socio-aesthetic, yoga, etc), events, news and blog posts.

Quality Manager / Johnson Controls, Faurecia

2006-2020

14 years of experience in the automotive industry. Managed quality in production and in programs, including innovative products. Worked with multicultural teams in Russia, UK, US, China, India and Europe.

PROJECTS

Portfolio Website

May 2021

Designed and code a personal portfolio website applying a mobile-first approach and code for 3 media queries. Used Figma, Atom, and GitHub.

House Hunters

February 2021

Created responsive app with a mobile-first approach and main focus on UI design, color, typography, UI elements. Based on the existing 5 user stories, persona, and partial brand guidelines. Used Figma and Unsplash.

Gale

October 2020

Designed a weather forecast app for water sports, by applying a full cycle of the design thinking process and using Adobe XD, Survey Monkey, Optimal Sort, and Unsplash.

Hints

April 2020

Created a vocabulary mobile app prototype by applying competitors' research, persona creation, wireframing and prototyping, using paper, pen, and Marvel.
